

1501 MCGILL COLLEGE AVE.

Prestigious Office Space
in a Prime Location

MCGILL COLLEGE AVENUE: RICH IN HISTORY

McGill College Avenue is the center of a dynamic economic, commercial and tourism landscape since its creation in 1856. In 1984, the Avenue was the subject of one of the city's first public oppositions against a development concept that would partially obstruct views of Mount Royal and reduce the planned widening of the avenue. The mobilization of Montreal stakeholders to protect the views of its beloved mountain and the Avenue's walkways led to the revision of this project, today known as the Bell Media Tower and Place Montréal Trust. From this spontaneous mobilization, the Advisory Committee on the Urban Design for the McGill College Sector was born and a process encouraging public consultations was implemented.

Completed in 1992 by Polaris Realty, Tour McGill is the home of several prestigious tenants. It is considered one of Montreal's tallest buildings and offers incomparable & unobstructed views of the Mount Royal thanks to the City and Heritage defenders.

DIRECT ACCESS TO THE CITY'S NEW REM LIGHT-RAIL NETWORK

Downtown Core is currently undergoing a major urban transformation with several ongoing redevelopment projects representing billions of dollars creating exceptional added value for tenants of 1501 McGill College Avenue. Particularly, the construction of the new fully automated light-rail network, with one of its stations directly beneath McGill College Avenue accessible via the building's underground access. Faster than ever, this entirely new mass-transit scheduled to be delivered in 2022 will connect the North Shore, South Shore, West Island and the YUL Montréal-Trudeau International Airport with Montreal's central business district through three axes.

A PRESTIGIOUS ADDRESS IN THE HEART OF THE CITY

Located on one of the city’s most prestigious avenues, Tour McGill offers outstanding views of the city and abundant natural lighting, by virtue of its glass curtain walls. A landmark on the Montreal nightscape, its illuminated, iconic pyramidal roof is visible throughout the whole central business district.

Greeting you with a spacious 3-storey lobby, high-quality marble and brass finishes, this building offers sophisticated postmodern design & architectural features.
